Those who possess a love for the water understand that pure tranquility exists in the stillness of the open sea. It lives in the whisper of a cool breeze. It harmonizes through the symphony of rolling waves. It conceals the mystery beyond endless horizons. Collectively, these exceptional moments inspire OCEAN ALEXANDER to meticulously craft bespoke yachts that grant you a magnificent seafaring experience in ultimate luxury. In all, offering uniquely personal moments you will cherish for the rest of your life.

Our design team understands your passion for the water, your reverence, your respect, and the fortitude of the sea. This innate passion drives us to constantly recreate our design queues and elevate them to a level of unmatched luxury and elegance. We imagine brilliant ways to utilize space, create innovative solutions for privacy, and provide functional living space utilization for the most discerning owners and their guests. Our commitment is to craft every OCEAN ALEXANDER yacht as an object of great beauty and an engineering marvel brought to life.

We are gripped with the idea that any object this wondrous and rare deserves to be constantly examined and refined. At OCEAN ALEXANDER we are proud to be a company made up of passionate people infused with tremendous talent. Our collective obsession to create perfection is brought on by the knowledge that every OCEAN ALEXANDER yacht is a dream made real.

GLOBAL RESPONSIBILITY.

OCEAN ALEXANDER takes pride in our dedication to tirelessly innovate methods to reduce waste and have made a conscientious commitment to the world around us. We actively engage in a variety of responsible practices that not only benefit our global environment, but we also believe it transcends to our workforce. Recycling has become paramount in our manufacturing process from our wood scraps and cabinetry by-products, to paper, metals, and even chemicals. Our factory is also fortunate to be in a zone of significant rainfall which allows for collected rainwater to be used in cleaning, landscaping, and service areas. These initiatives are not generally easy on our bottom line, but protecting the environment is a cause that reciprocates with peace of mind.

UNPARALLELED SUPPORT.

When you own an OCEAN ALEXANDER, you become a member of an exclusive suite of after-sales service, social events, and a concierge level of attention. With our annual Rendezvous and active owner network, we have created a world for our owners that does not end at the edge of the dock. This network of service continues to expand around the globe ensuring you will always have resources that allow you to travel free from worry.

COMMITMENT TO INDUSTRY.

Our commitment to the Marine Industry requires our team to look at the future, assess where comfort and functionality meet, and collectively bring it all together by collaborating with the finest naval and interior architects. Safety, efficiency, and sustainability drive every new venture and OCEAN ALEXANDER engineers have defined the top curve in yacht design. Our brand is often the inspiration for what you see in the yachts of tomorrow. We will continue to push innovation, discover more sophisticated manufacturing processes, and continue to re-define what true luxury can be.

30 REVOLUTION

Those with a passion for the water understand there's no place as invigorating as the open sea. It's this passion that drives OCEAN ALEXANDER to constantly push the boundaries of our designs and elevate our yachts to an unparalleled level of elegance, safety and style. Now, for the very first time, the best in engineering, craftsmanship and design is seamlessly merged together in a vessel that will define the future of luxury yachts for years to come.

Crafted by world-renowned designer Evan K. Marshall, as well as Arrabito Naval Architects, and perfected by our team of expert engineers, the 30R is the revolutionary embodiment of style and performance. We have not only dramatically innovated what a yacht can be; we've created an indisputable new standard in the industry.

We don't believe in taking shortcuts when creating a masterpiece. This is evident in every aspect of the 30R. The vertical bow expands living space without compromising the incomparable performance and efficiency we're known for. The striking facade evokes a sense of awe upon each glance. And the artistry behind every detail surpasses that of the most alluring yachts the world over. The 30R isn't just a radical departure from where OCEAN ALEXANDER has been — it's the breathtaking precursor of where we are going.

BOW LOUNGE

The forward main deck holds a roomy sun pad and large settee, making it the ideal spot for luxurious sunbathing and pure, restful relaxation. Here, there's more than enough room to soak up the sun and take in the magnificent view.

Aft Deck

SALON

You arrive at your salon through a whisper-quiet automated door that slides open with the touch of a button. Once inside, the perspective flows all the way through to the galley. Gleaming, floor-to-ceiling windows surround you with cinematic views of sunrises, sunsets and every other majestic moment in between.

The salon is open, relaxed and perfectly finished with light oak. A high-gloss ebony and walnut molding elevates this space. A large flat-screen TV folds down from the ceiling, and an abundance of storage options are effectively hidden behind exotic-wood panels. The forward wet bar island is a welcome accommodation designed with enough space to dramatically expand your guests' cocktail options.

Dining Area

MASTER SUITE AND BATH

The master suite is rich with custom cabinetry, and twin nightstands along with under-bed drawers that offer a wealth of storage. The king-size berth is an inviting sanctuary of comfort, with a deeply luxurious mattress and upholstered headboard. The cedar-lined his-and-hers walk-in closets are large enough to accommodate full wardrobes. Large windows allow the light to pour in during the day, yet provide privacy at any moment with motorized shades that whisper into place at the touch of a button.

The 30R proves its devotion to your guests with a palatial VIP stateroom thanks to the revolutionary vertical bow and intelligent design. The forward VIP stateroom has a king-size berth, an en-suite head, shower and an abundance of tastefully concealed storage, including under-bed drawers and custom-fitted cabinetry. Its full-size, cedar-lined hanging locker is quite spacious and a flat-screen TV completes the room while keeping guests entertained.

VIP AND GUEST STATEROOMS

The palatial VIP stateroom is thoughtfully designed with a luxurious, king-size berth, an en-suite head, shower and an abundance of tastefully concealed storage. Its full-size, cedar-lined hanging locker is quite spacious and a flat-screen TV completes the room while keeping guests entertained.

The guest stateroom easily morphs from twin berths to a single queen in seconds offering the utmost in comfort and flexibility. An en-suite head adds to the private, pampered experience. Exquisite fabrics, custom cabinetry and top-of-the-line fixtures adorn the space, beautifully mirroring that of the VIP and master staterooms.

Bridge Deck

AFT BRIDGE DECK

Outside of the enclosed bridge is an airy deck that may be one of the most entertaining areas on the boat. You can easily spend hours soaking in the optional four-person Jacuzzi tub, relaxing on one of the two large settees, or sitting back and enjoying the extraordinary view around you. With a fully outfitted wet bar and custom-made electric grill finished with highly polished 316 stainless steel, this deck is uniquely primed to be both an exceptional entertainment spot and relaxing open-air retreat.

ALLEGIANCE TO INNOVATION

OCEAN ALEXANDER takes exceptional performance to be paramount in luxury yacht building. Our team of relentless engineers have found the formula for developing magnificent yachts to encompass luxury, beauty, and speed while maintaining sound levels that allow you to take in the joyful sounds of the open ocean. We engage the finest interior architects and the most respected naval architects, allowing this synergy to take your senses to a higher level. None of this is new to OCEAN ALEXANDER. As we embark on the future, we push one another harder to stretch the boundaries of innovation, while respecting the accomplishments of yesterday.

COMMITMENT TO SAFETY

Once your journey begins out in the open sea, OCEAN ALEXANDER has taken every engineering detail to the highest level to ensure safe passage in sometimes challenging ocean conditions. While each vessel is prepared for moderate to high sea state conditions, your comfort and safety is our highest priority. The air intake ventilation for the engine room is recessed into the house and not the hull side resulting in less possibility of water intrusion. When OCEAN ALEXANDER builds and sources our components we generally look to vessels that exceed and nearly double our size classification. To say we overbuild is an understatement.

DEDICATION TO FUNCTIONALITY

Technology has become paramount in simplifying our daily lives and your yacht should be no different. OCEAN ALEXANDER has engaged with the finest system integration brought on from the aerospace industry and utilize Octoplex to command your vessel. The Octoplex system is not only believed to be the most sophisticated in the yacht industry, it is standard on all OCEAN ALEXANDER yachts and has been for nearly 15 years. Sophisticated, approachable, and designed for ease-of-use, this system has everyone in mind, it is as stunning as it is functional, not just for your captain and crew, but for you and your guests as well.

OBSESSION TO DETAIL

As with any beautiful structure, the details lie deep within. Our engine rooms are modeled after clean rooms in data and medical environments. From plumbing to electrical, every detail is given the utmost scrutiny as to access, function, and beautiful design. When possible, we provide the simplest accessibility for items that require regular service and finish off the space with high gloss paints and vapor proof commercial lighting.

YOUR
DREAM.

OUR

OBSESSION.
